

standing all-in-one machine

HJ-H05-O06 (F-5)
HJ-H10-O06 (F-6)
HJ-H15-O12 (F-7)

Product Introduction

The product standing all-in-one machine is a high-performance device with a combined capacity of 14.3 kWh + 10 kW, featuring space-saving design, powerful performance, and flexible operation modes, making it suitable for various commercial and office environments.

Long service life
and high safety

Integrated design

High-performance
configuration

Flexible layout

Technical Specification

Parameter

Product model	HJ-H05-O06 (F-5)	HJ-H10-O06 (F-6)	HJ-H15-O12 (F-7)
Battery voltage	51.2V	51.2V	51.2V
Battery capacity	100Ah	200Ah	314Ah
Energy	5.12KWh	10.24KWh	16KWh
Inverter power	6KW	6KW	12KW
MPPT voltage range	120-430Vdc	120-430Vdc	90-450Vdc
Waterproof rating	IP20	IP20	IP20
Communication method	RS485	RS485	RS485
Dimensions (mm)	450*270*650mm(approx.)	450*270*850mm(approx.)	510*377*770mm(approx.)
Weight (kg)	51kg(approx.)	91kg(approx.)	120kg(approx.)

Application Scenarios

With its high efficiency, flexibility, and safety, the stand-alone integrated system provides an ideal energy management solution for households and small commercial users, helping them achieve a green and low-carbon lifestyle.
